2-day Avoiding Pitfalls in Patent/Know-How Licences and R&D Collaborations

26-27 September 2024
+ 27-28 January 2025

An in-depth look at the key aspects of patent/know-how licences and R&D collaborations, assessing the potential pitfalls and areas where things can and do go wrong.

Format:
Live online

CPD:
12 hours for your
records

Certificate of
completion

Course overview

This practical and interactive two-day course will cover all the important aspects of patent/know-how licences and R&D collaborations that you need to be fully up to date with.

It focusses on the pitfalls and ambiguities to be aware of and avoid in these important and complex agreements. The expert trainer will take you through the stages of project management and guide you on how to achieve precision regarding IP definitions, ownership and use.

By giving you the knowledge of how to best approach your project you will understand how to build relationships and manage the process for better outcomes.

The expert trainer tackles the issues of the academia-industry dichotomy and analyses the key aspects of patent/know-how licences and R&D collaborations, assessing the areas where things can and do go wrong.

Benefits of attending

By attending this comprehensive seminar you will:

- **Ensure** you have the practical mastery to give you the edge in crucial IP agreements
- **Analyse** the key aspects of patent/know-how licences and R&D collaborations
- **Assess** the areas where things can and do go wrong using draft agreements
- **Take away** practical advice that will aid you in your day-to-day role
- **Compare** experiences with delegates in similar roles

There will be adequate time during the programme for discussion and to ask the expert trainer your questions.

Who should attend?

This course has been designed to provide a comprehensive overview of patent/know-how licences and R&D collaborations. It's applicable to all those who deal with these agreements, those who are relatively new to them and those looking for a refresher, including:

- Patent attorneys
- In-house lawyers
- Private practice lawyers
- Contracts managers
- Technology transfer managers
- Others involved in patent/know-how licences and R&D collaborations

The expert trainer will use case studies, exercises and discussion sessions to help embed the learning.

Programme

Day 1

Module 1: Patent/know-how licences

Key defined terms and how to avoid traps or ambiguity

Regarding:

- Territory – being specific and carved out exceptions
- Field – fields of use, geographical exclusions, patent type exclusions, use exclusions
- Exclusivity – pitfalls to avoid and suggested solutions
- Case studies, examples and discussion

Key financial terms including 'royalties', 'offsets' and 'milestones'

- The key aspects of provisions covering milestones and royalties
- Scope of licence and non-competition provisions - pitfalls to avoid and suggested solutions
- Liability and dispute resolution - suggested graduated dispute resolution steps, avoidance of conflict clauses
- Case studies, examples and discussion

Common pitfalls - part 1

- Defining the licensed IP - pitfalls and suggested solutions
- Licences of improvements – essential terms regarding foreground IP rights and responsibilities
- Case studies, examples and discussion

Common pitfalls - part 2

- IP warranties – essential IP and Data Protection warranties for every contract
- Dispute resolution – advantages and disadvantages of different resolution procedures
- Case studies, examples and discussion

Final questions for day one

Programme

Day 2

Module 2: R&D collaborations

Key clauses in the contract

- Each party's aims – understanding and negotiating
- Allocation of responsibility – where the responsibility and risk lies and how it can change with different wording
- Background IP applied - essential terms regarding background IP rights and responsibilities
- Plans for foreground IP - essential terms regarding foreground IP rights and responsibilities
- Case studies, examples and discussion

Frequently encountered issues and suggested solutions

- Role of the grantor
- Project coordination
- Letting problems fester
- Diverging agendas
- The solution
- Case studies, examples and discussion

Common pitfalls - part 1

- Confidentiality vs publication - the conflict between industrial aims and academic aims
- Patenting vs sharing – some suggested compromise solutions
- Herding diverse stakeholders – the differing objectives of the parties involved in IP development

Common pitfalls - part 2

- Change of control or key personnel – common problems encountered and suggested solutions
- National idiosyncrasies – examples
- Case studies, examples and discussion

Final questions

Presenter

Richard Brady

Richard Brady is a lawyer who has spent many years working in Europe and the Middle East in the legal, financial and insurance arenas. He has a degree from Cambridge College of Teachers (2005) on Teaching English and founded the British Legal Centre in 2010. He has taught professional legal skills in many companies around the World, including Deloitte and Touche, EY, White & Case, Baker McKenzie, Shalakany Law Office, DLA Piper and Clifford Chance. He has also conducted live training courses at legal departments of corporations, including: Shell Oil, Master Foods, Air Liquide, DAMAC (Dubai), ENKA (Turkey) EMBRACO/Whirlpool (Brazil), and Mowasalat (Qatar).

His specialist areas include contract law, contract drafting, M&A in the pharma industry, arbitration law and FIDIC contracts.

Reviews

Excellent all slides were relevant, clear, accurate and to the point plus actually useful to apply in my business. Richard is a great presenter and one of the best I have encountered at making a difficult topic interesting, (he) brought the course to life by using examples to explain points of law from his vast experience with litigation matters throughout his legal and commercial career.
