# The Regulatory Requirements on Nitrosamines in the Pharmaceutical Industry

**13-14 October 2025**

In this webinar, we will discuss the major requirements and strategies for nitrosamines, a hot topic that is on the forefront of many company's minds.

**Format:**  
Live online

**CPD:**  
6 hours for your records

Certificate of  
completion

# Course overview

**Nitrosamine regulations are the most impactful change to our industry in recent years, affecting 30% of current and new products, including generics.** Regulatory expectations have changed frequently and vary globally. In this webinar, we will discuss the major requirements and strategies. Those new to the subject and those growing their nitrosamine team will find value in seeing the entire picture. Experienced Small and Medium-sized Enterprises (SMEs) will receive detailed instructions for common pain points, like risk assessments.

## Benefits of attending

- **Enhance** your understanding of current regulatory framework and recent changes
- **See** the full scope of work for your team members to understand how their part fits with the whole
- **Learn** best practices for risk assessments
- **Inform** next steps when your product is near or above regulatory limits through remediation, control strategies, and new research
- **Example products** guide the way to practical understanding

## Who should attend?

This course will benefit nitrosamine decision makers and those who can benefit from a broader understanding of the full picture of nitrosamines in regulatory affairs, sales, quality, and analytical departments.

# Programme

## Day 1

History and background  
Classes of nitrosamines  
Regulatory update  
Team building  
Risk assessments  
At risk structures  
Limit determination

## Day 2

Nitrosation Assay Procedure (NAP) test  
  
Analytical instruments and methods  
Control strategy  
Remediation  
  
Post approval changes  
Where are we going? Future state and unanswered questions

# Presenter

## **Jason Brown**

Jason Brown brings a wealth of knowledge and practical experience to his role as Senior Analytical Sciences Manager at Adare Pharma Solutions, where he serves as the global nitrosamine subject matter expert. He has led Adare's innovative approaches to understanding nitrosamine formation, measurement, and mitigation to ensure regulatory compliance internally and for our customers. Jason has led numerous dialogues on the subject of nitrosamines through panel discussions, webinars, posters, articles, and regular contributions to the USP Nitrosamine Forum. Jason has a BS in Chemistry from George Fox University.

# Course date

**13-14 October 2025**

**Live online**

13:00-16:00 **UK (London)** (UTC+01)

Course code 15455

GBP ~~649 749~~

EUR ~~909 1,049~~

USD ~~1,043 1,199~~

**Until 08 Sep**

## How to book

**Online:**

[ipi.academy/2794](https://ipi.academy/2794)

Alternatively contact us to book, or if you have any queries:

**Email:**

[info@ipiacademy.com](mailto:info@ipiacademy.com)

**Phone:**

[+44 \(0\)20 7749 4749](tel:+442077494749)

## Discounts

- Booking more than one delegate on any one date qualifies for a **30% discount** on the second and subsequent places.
- Most events qualify for an **early booking discount** prior to 6 weeks before the course date. Be sure to check on our website, where the latest discounts will be shown.

## Further information

### Fee

The fee includes all meals and refreshments for the duration of the course (for venue-based courses) and a complete set of course materials (provided electronically). If you have any particular requirements, please advise customer services when booking.

### Please note

IPI Academy (and our training partners) reserve the right to change the content and timing of the programme, the speakers, the date and venue due to reasons beyond their control. In the unlikely event that the course is cancelled, we will refund the registration fee and disclaim any further liability.

### Terms and conditions

The rest of our terms, the event cancellation policy and the terms and conditions are on our website, please visit [ipi.academy/content/terms-and-conditions](https://ipi.academy/content/terms-and-conditions)

# Reviews

**I really enjoyed the training. Both the presentation and the speaker were very clear in conveying the knowledge. I was able to achieve both (my) objectives; to gain new knowledge and delve deeper into some topics that I wasn't so aware of, and also to get a glimpse of the future in relation to nitrosamines. I really liked the fact that there was a separation between a part that focused more on 'before the lab' and 'the lab and beyond application' and covered a little bit of everything. My final evaluation is very positive.**
