Overview

This FREE session will cover lessons learned from elite sport in both individual and team sports, breaking down the skills that drive success and exploring how these techniques can be applied to build high-performing cultures in professional and personal settings. By comparing the unique demands of dressage and rowing, this talk will discuss techniques for setting actionable goals and building a cohesive team through clear communication and shared values. It will also explore the strategies for performing under pressure and building resilience, using flexible and adaptive thinking to excel in changing environments.

Benefits of attending

- **How** to create a high-performing culture
- **Look** at building a cohesive team and working collaboratively to achieve a common goal
- **Explore** goal-setting techniques to drive personal and professional development
- **Understand** performance under pressure and building resilience

Who should attend?

This talk will be of interest to anyone looking to improve the performance of themselves and their team, with skills being introduced that will be of use in your personal life too.

Presenter

Clare Hole

Clare Hole is a Cambridge University graduate with 11 years of experience in elite sport across Dressage and Rowing. Between 2013-2021, she competed at over 20 international competitions for Youth and Senior GB Dressage teams from ages 11 to 20, winning team gold at the 2015 Youth European Championships. She then took up rowing at Cambridge University where she spent 3 years as part of the Cambridge University Boat Club rowing alongside World and Olympic champions and was part of the winning the 2024 Oxford-Cambridge Boat Race. She has extensive experience in both team and individual sports as both an athlete and in leadership, including experience with effective goal-setting, coaching and management of media and sponsors. Besides sport, Clare also has a BA in Natural Sciences (Psychology, Neuroscience and Behaviour) and an MPhil in Epidemiology and is currently a Scientist at Genomics plc.

Course date

16 May 2025
