Breaking the Code – Achieving Publication Success in Scientific Journals: Journal Submission and Publication

7 July 2025

+ 17 November 2025, 16 March 2026

This course provides an overview of journal submission, including the types and steps of submissions, as well as effective pre- and post-submission communication to help participants navigate publication successfully.

Format:
Live online

CPD:
1.5 hours for your records

Certificate of completion

Overview

This course provides a thorough overview of the journal submission process, guiding participants through the different types of journal submissions and the essential steps involved in preparing and submitting a manuscript. Participants will learn about the key documents required for submission, including cover letters and supplementary materials, ensuring a complete and professional application. Additionally, the course addresses effective communication with journals both before and after submission, offering strategies for managing revisions, responding to reviewers' feedback, and navigating the publication process with confidence.

Benefits of attending

At the end of this workshop, attendees will be able to:

- **Understand** the types of journal submissions
- **Prepare** a manuscript in line with journal guidelines and navigate the submission process confidently
- **Communicate** professionally with journal editors and reviewers during and after the submission process

Who should attend?

- Early-career researchers and academicians looking to publish their research in reputable scientific journals
- Graduate and postgraduate students aiming to understand the academic publication process
- Research assistants, lab members, and academic staff involved in manuscript writing and submissions
- Science professionals, technical writers, and consultants seeking to enhance their knowledge of scholarly publishing practices
- Anyone interested in developing skills for selecting appropriate journals and navigating the publication process efficiently

Programme

Types of journal submissions

- Original research articles, review articles and case reports
- Letters to the editor and short communications

Steps of journal submission

- Preparing the manuscript according journal guidelines

Documents needed for submission

- Manuscript, cover letter and conflict of interest forms
- Author agreement and copyright transfer forms

Journal communication pre- and post- submission

- Pre-submission inquiries
- Managing correspondence with editors during the review process
- Responding to requests for additional information

Samaa Al Tabbah

Dr. Samaa Al Tabbah holds a B.S. in Medical Laboratory Technology (MLT) from the American University of Beirut (AUB) and a Pharm D. in Clinical Pharmacy from the Lebanese American University (LAU). After graduation, Dr. Al Tabbah held a position as a chief pharmacist at the World Health Organization (WHO), Beirut office. At a later stage, she established a pharmacy in Beirut, where she served as a community pharmacist for over 6 years. Dr. Al Tabbah is a strong supporter of the Children's Cancer Center in Lebanon where she served as a volunteer for 4 years. She also acts as a consultant and mentor at the Egypt Scholars Inc. and the International Pharmaceutical Students Federation (IPSF) where she works closely with mentees providing them with concrete clinical and research skills that allow them to identify new research topics, discover new techniques, and pursue a strong career development plan.

Through her work, she has been involved in clinical research; more specifically, in training workshops carried out at the national and international level, in the delivery of sessions on different aspects of the conduct of clinical research, as well as in the conduction of different international clinical research projects. She is the author of many scientific papers published in peer-reviewed journals as well as a book titled "The Clinical Research Process from Initiation to Publication". She is an editorial member of two peer-reviewed scientific journals. She is an Assistant Professor at University Institute for Nursing (Lebanese Red Cross), where she delivers Pharmacology, Microbiology and, Public Health, Community Health, and Clinical Research courses. She was lately appointed as the Global Pharmacovigilance Society Ambassador of Lebanon where she also acts as an acting board member of the society.
