An Overview of Ethical Standards in Clinical Research Publication

29 September 2025

+ 13 May 2026, 11 December 2026

This course will look at ethical research, responsible authorship, and data integrity while addressing conflicts, misconduct, and copyright issues.

Format:
Live online

CPD:
1.5 hours for your records

Certificate of completion

Overview

Good Publication Practice (GPP) ensures ethical research dissemination and integrity. Guidelines from various entities have evolved, shaping responsible authorship and publication. Key roles include authors, contributors, reviewers, editors, publishers, and owners, each with defined responsibilities. Ethical concerns like conflicts of interest, scientific misconduct, and copyright issues must be addressed. Medical journal publishing involves managing corrections, version control, preprints, and clinical trial data sharing. Protecting research integrity requires preventing data manipulation, ensuring patient privacy, and engaging patients in research. The role of AI tools in publication is also increasingly significant.

Benefits of attending

- **Understand** Good Publication Practice (GPP) guidelines
- **Adhere** to ethical and transparent dissemination of research findings

Who should attend?

- Clinical research professionals, including clinical research associates, investigators, and study coordinators
- Medical writers, regulatory writers, and publication professionals
- Quality assurance specialists and compliance officers in pharmaceutical and clinical research organisations
- Anyone involved in clinical trial documentation, regulatory submissions, or scientific publications seeking to improve their understanding of good practices and ethical guidelines

Samaa Al Tabbah

Dr. Samaa Al Tabbah holds a B.S. in Medical Laboratory Technology (MLT) from the American University of Beirut (AUB) and a Pharm D. in Clinical Pharmacy from the Lebanese American University (LAU). After graduation, Dr. Al Tabbah held a position as a chief pharmacist at the World Health Organization (WHO), Beirut office. At a later stage, she established a pharmacy in Beirut, where she served as a community pharmacist for over 6 years. Dr. Al Tabbah is a strong supporter of the Children's Cancer Center in Lebanon where she served as a volunteer for 4 years. She also acts as a consultant and mentor at the Egypt Scholars Inc. and the International Pharmaceutical Students Federation (IPSF) where she works closely with mentees providing them with concrete clinical and research skills that allow them to identify new research topics, discover new techniques, and pursue a strong career development plan.

Through her work, she has been involved in clinical research; more specifically, in training workshops carried out at the national and international level, in the delivery of sessions on different aspects of the conduct of clinical research, as well as in the conduction of different international clinical research projects. She is the author of many scientific papers published in peer-reviewed journals as well as a book titled "The Clinical Research Process from Initiation to Publication". She is an editorial member of two peer-reviewed scientific journals. She is an Assistant Professor at University Institute for Nursing (Lebanese Red Cross), where she delivers Pharmacology, Microbiology and, Public Health, Community Health, and Clinical Research courses. She was lately appointed as the Global Pharmacovigilance Society Ambassador of Lebanon where she also acts as an acting board member of the society.
