Navigating Risk and Compliance in Pharma: Storage and Distribution Compliance

21 November 2025
+ 15 May 2026

Discover how regulatory compliance and best practices in pharmaceutical storage and distribution ensure safe, effective medicines, with a focus on the vital role of 3PL suppliers in optimising supply chain efficiency.

Format:
Live online

CPD:
1 hours for your records

Certificate of
completion

Course overview

Managing the pharmaceutical supply chain is a complex process involving stages of sourcing raw materials, manufacturing medicines, and delivering them to patients.

The process requires proper storage and transportation at different stages, as inadequate compliance with various good practices and regulations can impact product quality.

Ensuring the safe and effective distribution of pharmaceutical products involves multiple stakeholders, requiring efficient coordination and handling. Third-party logistics (3PL) suppliers play a vital role in enhancing supply chain efficiency and reducing costs, allowing manufacturers to focus on their core operations.

This course will focus primarily on compliance with regulatory requirements and good practices for the storage and distribution of pharmaceutical products, specifically in the context of 3PL suppliers.

Benefits of attending

- **Understand** the basics of pharmaceutical supply chain and its stakeholders
- **Enhance** your knowledge of various regulatory and best practices followed during storage and distribution of pharmaceutical products
- **Learn** about of the latest compliance trends and challenges in the pharmaceutical 3PL industry

Who should attend

This course is ideal for professionals in the following industries:

- 3PL
- Pharmaceuticals
- Biotechnology
- Medical Devices
- Life Sciences (especially those involved in storage and distribution)

Additionally, it is well-suited for professionals in 3PL, pharma, and related industries who want to understand the fundamentals of the pharmaceutical supply chain. The course also benefits anyone looking to stay updated on the latest regulations and industry trends affecting the pharmaceutical 3PL sector.

Programme

Introduction to pharmaceutical supply chain

- Stages in the supply chain
- Different stakeholders and role of 3PL service providers

Storage and distribution of pharmaceutical products

- Industry regulations and certifications
- Quality compliance and best practices

3PL pharmaceutical compliance trends

- Evolving regulatory and customer requirements
- Innovation and challenges

Presenter

Gurpal Singh

Dr. Gurpal Singh is an experienced Pharmaceutical Quality Management professional with more than 25 years of experience and a history of success in QA operations management, Quality systems implementation and Continuous improvement. He previously worked in global quality assurance roles within large pharmaceutical companies like MSD and Novartis where he led various quality projects and QA initiatives ensuring compliance with international GxP and regulatory requirements. Gurpal holds a doctorate in Chemistry from Magadh University of India and holds professional certificates in Six Sigma, Quality Auditing and Business Management. He is also a member of International Society of Pharmaceutical Engineering.
